

Dear Hiring Manager,

I am thrilled to apply for the Senior Software Engineer position at Gelato, where I can utilize my skills in GoLang and PHP to drive innovation in the print production industry. With over 5 years of experience in software development, I am confident that my expertise in designing highly-available, fault-tolerant, and scalable systems will be a valuable asset to your team.

As a programming language agnostic with a passion for solving complex engineering problems, I am excited about the opportunity to work on Gelato's cloud-based connectivity platform. My experience with backend development, CI/CD pipelines, and agile methodology aligns with Gelato's technology stack and approach. I am impressed by Gelato's commitment to sustainability and its impact on the environment, and I am eager to be a part of a team that is reshaping the print industry to be more efficient and green.

As a seasoned engineer, I have a proven track record of collaborating with cross-functional teams, sharing knowledge, and building creative solutions. I am confident that my skills and experience make me a strong fit for this role. I am particularly drawn to Gelato's global network and the opportunity to work with a talented team of engineers to deliver custom products to a massive scale.

I would welcome the opportunity to discuss my application and how my skills and experience align with Gelato's vision. Thank you for considering my application. I look forward to the opportunity to contribute to Gelato's success.

Best regards,

Asim Bilal
