

Dear Hiring Manager,

I am excited to apply for the Senior Product Engineer (Full-stack) position at deepset GmbH, as advertised on your company's homepage. With a strong passion for building innovative products and a keen interest in AI, I am confident that my skills and experience make me an ideal fit for this role.

As a seasoned full-stack engineer with a proven track record of delivering high-quality products, I possess a deep understanding of software development principles, patterns, and practices. My expertise spans a range of technologies, including front-end and back-end development, databases, and cloud infrastructure. I am well-versed in agile development methodologies and have a strong commitment to writing clean, maintainable, and efficient code.

I am particularly drawn to deepset's mission to enable businesses to unlock the full potential of their data using AI-powered solutions. My own experience with open-source projects has given me a unique appreciation for the importance of collaboration, community engagement, and knowledge sharing. I am impressed by deepset's commitment to open-source and its contributions to the Haystack community.

I am excited about the prospect of joining a talented team of engineers and contributing my skills and experience to help drive the company's success. I am confident that my strong work ethic, attention to detail, and passion for innovation would make me a valuable asset to the team. I have attached my CV, which provides more details about my experience and qualifications.

Best regards,

Asim Bilal
