

Dear Hiring Manager,

I am excited to apply for the Senior Product Engineer (Full-stack) position at deepset GmbH, as advertised on your company's homepage. With a strong passion for developing innovative products and a keen interest in AI, I am confident that my skills and experience make me an ideal fit for this role.

As a seasoned full-stack engineer with a proven track record of delivering high-quality products, I possess a deep understanding of software development principles, patterns, and practices. My expertise spans a range of technologies, including front-end and back-end development, databases, and cloud computing. I am well-versed in Agile methodologies and have a strong commitment to writing clean, maintainable, and efficient code.

I am particularly drawn to deepset's mission to empower companies to unlock the full potential of their data using AI and NLP. My own experience with open-source projects has given me a unique perspective on the importance of collaboration and community-driven development. I am impressed by deepset's contributions to the open-source community and excited about the opportunity to be a part of a team that shares my values.

I have attached my CV, which provides more details about my experience and qualifications. I would welcome the opportunity to discuss my application and how I can contribute to the success of deepset. Thank you for considering my application.

Best regards,

Asim Bilal
