Dear Hiring Manager,

I am excited to apply for the Senior Product Engineer (Full-stack) position at deepset GmbH, where I can utilize my technical expertise to drive innovation and growth. With a strong background in full-stack development and a passion for building scalable, user-centric products, I am confident that I would be a valuable addition to your team.

As a seasoned engineer with a proven track record of delivering high-quality solutions, I possess a unique blend of technical skills and collaborative spirit. My expertise in full-stack development, including proficiency in languages such as JavaScript, Python, and HTML/CSS, enables me to tackle complex problems and develop efficient, scalable solutions. I am also well-versed in Agile methodologies and have experience working with version control systems like Git.

I am particularly drawn to deepset's commitment to innovation and its focus on AI-powered solutions. I am impressed by the company's open-source contributions and its active community engagement. As someone who is passionate about open-source development and has experience contributing to open-source projects, I believe that I would thrive in deepset's collaborative and dynamic environment.

I have attached my CV, which provides more details about my experience and skills. I would welcome the opportunity to discuss my application and how I can contribute to deepset's success. Thank you for considering my application.

Best regards,

Asim Bilal
